Jim's previous book "Digitally Transforming the Mortgage Banking Industry" pointed out some problems. The digital transformation is crucial. But to me that book felt like it was describing an industry that needed to 'catch up' to the world. There is more to it than that. In this book Jim provides a strategic road-map for many mortgage bankers.

Jim Deitch's first book on mortgage banking transformation, Digitally Transforming the Mortgage Banking Industry, — an instant bestseller — was conceived by Jim at the 2017 MBA Chairman's Conference. The industry was experiencing higher costs to produce and profit was under pressure. The average earnings of Independent Mortgage Bankers were released the second day of the Conference - 11 basis points on loan production, well below the long-term average of about 50 basis points.
