Health Communication in the New Media Landscape. Description. Health Communication in the New Media Landscape demonstrates the extent to which modern, digital technology can serve as the most practical and efficient form of distributing health-related information. To date, little guidance exists for health care professionals who want and need new ways to communicate health information with each other, their patients, and the general public.

Health Communication in the New Media Landscape

Health communication can take many forms, both written and verbal, traditional and new media outlets. While you might be excited to get started with your new program, you must first develop a sound strategic plan. All strategic communication planning involves some variation on these steps
