With around 20,000 students, the University of Bremen is a medium-sized German university. Bremen offers a wide range of subjects for committed and talented students: a good 100 master's and bachelor's programs as well as the state law examination. And with research-based learning, the university has reinterpreted project study, a feature from its founding days.

The University of Naples Federico II is the oldest public university in the world. The king's main purpose was to create an institution of higher learning that would put an end to the predominance of the universities of northern Italy, most notably those of Bologna and Padua, which were considered either too independent or under the strong influence of the Pope.
