Statistical Process Control (SPC) 2nd Edition - Academia.edu

The design of experiments (DOE, DOX, or experimental design) is the design of any task that aims to describe and explain the variation of information under conditions that are hypothesized to reflect the variation. The term is generally associated with experiments in which the design introduces conditions that directly affect the variation, but may also refer to the design of quasi-experiments ...

Design of experiments - Wikipedia

The application of groundwater models shall meet the most current EPA or ASTM quality assurance/quality control criteria approved by the Department. Cross References This section cited in 25 Pa. Code § 250.602 (relating to risk assessment procedures); and 25 Pa. Code § 250.606 (relating to development of site-specific standards).
